- **Technology, Platform**
  - *JavaScript*
    - *client-side + related technologies*
    - *server-side – asynchronous I/O, node.js*
  - *It does not mean you cannot combine technologies*
    - *Node.js as a Web server, ESB for proxy services with back-end systems, all running in a cloud environment (auto scaling, load balancers, message queues, etc.)*

## Assessment

- Labs
  - Presence is mandatory
    - You can miss up to 1 lab without sending regrets
  - Total maximum points:  $P=40$ 
    - exercises for labs + your activity + your homeworks
  - to pass:  $P \geq 20$
- Final exam
  - Mandatory written test: 3 parts, ~1 hour
    - each gives you a max. of 20 points, the total  $E = 60$  points
    - you must have at least 50% of points from each theme covered by a test part and 50% of points in total
  - Final score:
    - $P + E = 100$  maximum points
    - The more points you have from labs, the better for the exam!

## Assessment – Final Marks

Mark	Points	In words
A	100–90	výborně
B	89–80	velmi dobře
C	79–70	dobře
D	69–60	uspokojivě
